OWINGSVILLE, KENTUCKY

THE TITHING MAN.

His face was built on the Gothic plan, and his features were those of the tithing-man in the old peddler's day.

When the earth was bumble-bee bathe; when the candle-mold and bone and wax Were the handiest things for welding

In the days when people could not shirts.

But buckled down the long week through With grit and grace and elbow-grease,

Till Saturday night brought him home,

He obediently pursued their ways.

He heard the Scriptures, and dressed his head To listen to what the parson said.

He had a good time, and risked the ban

For fun and taciturn tithing-man.

Oh, the tithing-man, the tithing-man!

Up at the front door and scan

The sun, and then he'd go off to work.

Like sunflowers turned to "Phoebe's" glow,

New Morpheus daily by Dute bathed him,

talked

With his fingers in listening ears,

He cracked down eyelids and calmed the Till head dropped here and head dropped there.

Under the parson's somber glare,

Up at the front door and scan

Of the draft that Morpheus had to lip,

Then he'd go off and stoned

their eyes,

But others dropped and dipped and dipped,

Then they slipped,

Or that vibrant tyrant, the tithing-man.

Oh, the tithing-man, the tithing-man!

Up at the front door and scan

Who is tired of distaff and quilting?

The weaves and worries of six days past

Have all been washed away,

in church at last,

They're men, and they're women,

With a great shout and a joyful noise,

The tithing-man is here,

Silkworms fed on different leaves produce different colored silk; a diet of vine leaves produces a bright red, and lettuce an emerald green.

Rabbit hawks will take so many rabbits in one day that they cannot eat them all, and must leave some in case of pursuit. The natural color of the rabbit is so much resembles the color of the hawk that it would otherwise be impossible.

WORTH REMEMBERING.

There are three entirely different kinds of ingredients used in making the three different varieties of baking powder. (1) Cream of Tartar, (2) Baking Soda-Acid or Alum, (3) Baking Powder or Phosphate and (4) Cream of Tartar made from grapes.

The manufacture of yeast is important, because it is the yeast which does something about these ingredients, and which kind is used in your baking.

(1) *Baking-Acid*, or Alum, is made from kelp. Tartar is mixed with dilute oil of vitriol and water, with this solution a product is obtained which is alum. Alum is cheap, costs about two cents a pound, and baking powder is made from it.

(2) *Baking-Powder*, or Phosphate, is the best baking powder, and the process is fully described in the patents issued to a learned man, Dr. Michael C. Cramer, of the U. S. Patent Office Report gives a full and exact description, but the following is given:

"Baked beans, after being ground, are put into freshly diluted oil of vitriol and with continual stirring boil in the following proportion,

one pound beans to four pounds oil.

From this Baking-Acid phosphate baking powder is made, and it costs about 20 to 25 cents a pound.

(3) *Cream of Tartar* exists in all ripe grapes, and the juice from the grapes in the manufacture of tartar. After the wine is drawn the tartar is scraped from the cask, boiled with water, white and very pure, separate and are collected. It differs in no respect from the tartar found in the grape skins.

ANNOUNCEMENT.

FOR REPRESENTATIVE.

We are authorized to announce
C. E. Day, of Madison, a can-
didate for Representative from
Bath and Rowan counties, subject
to the action of the Democratic party.

We are authorized to announce
Walter Sharp, of Sharpsburg, as a
candidate for Representative from
Bath and Rowan counties, subject
to the action of the Democratic party.

American Protective has pa-
ssed into the China seas with his
Russian squadron and actually
means to give battle to Japan if
they endeavor to force him to way
to Vladivostok. The news of the
great naval battle of the time
may come any day.

Bethel, Wm., Democrat, was
elected Mayor of St. Louis last
week by 14,250 plurality the balance
of the elected officials being divided
between the Democrats and Repub-
licans. If it isn't more of a dem-
ocratic victory than this, then there
isn't a Democratic victory at all.

The alleged Democratic party
of Ohio has elected a state leg-
islator of last week by electing
Judge Edward E. Dunn Mayor
over John M. Harlan, Repub-
lican, son Justice Harlan, the
Dunn vote was 21,601. Adriana (Baby)
Anson, the ecdemid of
babe-boom, was elected City
Chairman 29th. This is the
balance of the alleged Democratic
ticket by large pluries, though
the Republicans elected 38 inci-
ments to 10 for the alleged Dem-
ocratic. The place of the alleged
Democratic party was municipal
ownership of public utilities. Why
it's alleged that the party of Pop-
ulist or Socialist party is simply
because the name Democratic
still sticks to the party, and with
and foot the people with it.
Democracy's hope lies through such
victories it's "Farewell, Bright
Eyes," with the real old-fashioned
Democrats.
